

## CURRICULUM VITAE

**Name** Andrew (Andy) Roger Willan  
**Address** Child Health Evaluative Sciences, SickKids Research Institute  
PGCRL-11.9708 - 555 University Avenue, Toronto ON M5G 1X8 Canada  
**Telephone** 416.813.2166  
**Fax** 416.813.5979  
**E-mail** andy@andywillan.com  
**Website** www.andywillan.com/willan

### Education

- PhD in Biostatistics from the Department of Epidemiology and Biostatistics at the University of Western Ontario, London ON, 1979.
- MSc in Statistics from Queen's University, Kingston ON, 1976.
- BEd in Mathematics and Physical Education from Queen's University, Kingston ON, 1972.
- BA in Economics and Mathematics from York University, Toronto ON, 1970.

### Present Position as of July 2002

- Professor, Dalla Lana School of Public Health, University of Toronto
- Senior Scientist Emeritus, Child Health Evaluative Sciences, SickKids Research Institute, Toronto
- Professor Emeritus, Clinic Epidemiology and Biostatistics, McMaster University

### Awards

- Co-author on a paper receiving the International Society for Pharmaco-economics and Outcomes Research Award for Methodology Excellence, awarded May 2002.
- First author on a paper receiving the International Society for Pharmaco-economics and Outcomes Research Award for Methodology Excellence, awarded May 2000.
- Co-author on a paper receiving the Best Paper Award from the Society for Medical Decision Making, 1995.
- NHRDP Graduate Fellowship, 1977-1980.

### Experience

- September 1993 to June 2002 - Professor, Department of Clinical Epidemiology and Biostatistics, McMaster University, Hamilton ON
- September 1990 to June 1993 - Associate Professor, Department of Clinical Epidemiology and Biostatistics, McMaster University, Hamilton ON
- January 1989 to May 1990 - Head, Division of Clinical Trials and Epidemiology, Sunnybrook Health Science Centre, Toronto ON
- March 1989 to October 1991 - Associate Professor, Department of Preventive Medicine and Biostatistics, University of Toronto, Toronto ON
- September 1987 to February 1989 - Associate Professor, Department of Population Medicine, University of Guelph, Guelph ON
- April 1985 to August 1987 - Head of Biometry with the Clinical Trials Group, National Cancer Institute of Canada, Queen's University, Kingston ON.

- September 1981 to August 1987 - Assistant Professor, Department of Community Health and Epidemiology, Queen's University, Kingston ON.
- October 1980 to March 1985 - Biostatistician with the Clinical Trials Group, National Cancer Institute of Canada, Queen's University, Kingston ON
- December 1979 to September 1980 - Biostatistician with the Division of Epidemiology at the Cancer Control Agency of British Columbia, Vancouver BC
- January 1980 to September 1980 - Assistant Professor, Department of Mathematics, University of British Columbia, Vancouver BC

## Research Funding

- Canadian Institutes of Health Research, The Twin Birth Study. Barrett J (Principal Investigator), Hannah M, **Willan A**, Ross S, Hutton E, et al., \$8,608,045, 2003-2014.
- Canadian Institutes of Health Research, Multiple Courses Of Antenatal Corticosteroids For Preterm Birth Study: 5 Year Follow-Up (MACS-5). Asztalos E (Principal Investigator), Hannah M, Ohlsson A, Ross S, Matthews S, Murphy K, **Willan A**, Saigal S, Gafni A. \$3,585,161, 2005-2012.
- National Science and Engineering Council, Expected Value of Information and Optimal Trial Design. **Willan AR** (Principal Investigator) \$70,000, 2008-2013.
- Canadian Institutes of Health Research, The Bedside Paediatric Early Warning System: a cluster randomized trial of mortality and processes of care. Parshuram C (Principal Investigator), **Willan AR**, and 13 others. \$3,959,716, 2010-2014.
- Canadian Institutes of Health Research, Sustainability of a multidimensional knowledge translation intervention to improve paediatric pain practices and outcomes. Bonnie Stevens (Principal Investigator), **Willan AR**, and 20 others. \$998,061, 2011-2014.
- Bill and Belinda Gates Foundation, Parathyroid-vitamin D axis dysregulation in early-onset infant stunting in resource-poor settings. Dan Roth (Principal Investigator), **Willan AR**, and 5 others. \$1,999,993, 2012-2016.
- Canadian Institutes of Health Research, Impact of Emergency Department Probiotic Treatment of Pediatric Gastroenteritis: Randomized Controlled Trial. Stephen Freedman (Principal Investigator), **Willan AR**, and 9 others. \$2,231,300, 2013-2018.
- Canadian Institutes of Health Research, Sucrose Practices for Pain in Neonates (SPiN); A Program of Research. Bonnie Stevens (Principal Investigator), **Willan AR**, and 12 others. \$1,246,500, 2013-2018.
- IMPACT. Comparing the complex care for kids Ontario (CCKO) province-wide integrated care intervention for children with medical complexity (CMC) to waitlist controls using a patient-engaged evaluation framework and mixed method design. Nora Fayed (Principal Investigator), **Willan AR**, and 16 others. \$300,000, 2016-2018.
- IMPACT. Addressing obesity in toddlers at risk: a pragmatic randomized controlled trial comparing usual care to group-based parenting and home visits in primary care. Catherine Birken (Principal Investigator), **Willan AR**, and 11 others. \$299,723, 2016-2018.
- Canadian Institutes of Health Research - Foundation Scheme – 2nd Live Pilot. Effective Knowledge Translation Strategies for Enhancing Impact and Improving Outcomes in Infant Pain. Bonnie Stevens (Principal Investigator), **Willan AR**, and 13 others. \$3,823,346. 2016-2023.
- Canadian Institutes of Health Research - Project Scheme – 1st Live Pilot. Evaluating the effectiveness of an online knowledge translation intervention for minimizing procedural pain in hospitalized infants. Bonnie Stevens (Principal Investigator), **Willan AR**, and 13 others. (\$1,116,171). Declined. 2016-2021.

- Canadian Institutes of Health Research - Project Scheme. Intermittent vs. Continuous Oxygen Saturation Monitoring in Infants Hospitalized for Bronchiolitis: A Randomized Controlled Trial. Sanjay Mahant (Principal Investigator), **Willan AR**, and 9 others. (\$1,823,340). 2016-2020.
- Canadian Institutes of Health Research - Foundation Scheme – 2nd Live Pilot. Necrotizing Enterocolitis (NEC) Research Program: introducing innovative therapies to halt the disease progression and promote recovery. Agostino Pierro (Principal Investigator), **Willan AR**, and others. \$. 2016-2023
